OUR STORY

Recipe from our grandmother, or as we remember her, Babci....

Family owned and operated since 1990.

We, at **Just Say Cheesecake,**

Has created thousands of wedding cakes and specialty cakes customized to our client's specifications.

Still creating, we use our original recipe from our grandmother, Jane, or as we remember her Babci. Our varieties have evolved from a simple 8 flavors to over 50 and, as always, still bake traditional batter cake for any occasion. Our business has grown from a small store front selling cheesecake at a

Local farmers market to a large business which now includes Lunch and Catering.

But, like always, baking cheesecake and creating edible works of art for your special occasions is the heart of our business.

Jim & Dan
